Malmö, Sweden (+46) 709548100

ABOUT

Structured and positive junior developer, with strong work ethic. Diploma in Full Stack Web Development specialising in Front End, followed by a web development internship (remote) where I gained further skills in problem solving and communication. Additionally I organised the onboarding of new interns and documented technical processes. Experience with technologies such as React, JavaScript, HTML, CSS and SQL databases. I'm a fast learner and determined long distance runner. Looking for my next opportunity as a web developer either on site in Malmö/Copenhagen or remotely.

EDUCATION

Udemy (Remote) — Frontend Design with Figma and Webflow
June 2024 - Present

Code Institute, Ireland (Remote) — Full Stack Web Development
